Will do. Had a late conversation with Karen on Fri. She wants mgmt and unions to discuss a process to address the sci int policy at the npc. She isn't looking for a response to the letter to Bob now - but would like our discussion to be reflected in the response which we can sent after the meeting. She sent the letter to you under pressure from union members.

Karen-

Thanks for the voicemail – today got away from me. I'd still like to talk. When is the best time to reach you?  
Susan
